Senior Software Engineer (Consultant) · **SWIFT**, Brussels, Belgium

Jul 2019 – Jun 2024

Three squads over five years: Identity Management, Community Gateway and Knowledge Channels.

- Spearheaded the migration of the Identity Management monolith to a microservices architecture, keeping the service live for users throughout the transition.
- Led the JSF-to-Angular migration of the same platform, a delivery tied directly to a key business KPI.
- Docker champion for two squads: built and maintained the container images the applications ship in.
- Hardened multiple back-office applications by remediating security vulnerabilities and code-quality findings.
