■ PROFILE

Hands-on Tech Lead across finance, payments and media. Led the backend team at Eleven Sports reporting to the CTO, served as Scrum Master and squad specialist at SWIFT, and now coaches 5+ squads on secure, automated delivery. I stay in the code: microservices migrations, event-driven platforms, CI/CD blueprints and database migrations at the billion-record scale.

17+

years in software engineering

40+

Java apps on zero-touch
release orchestration

80%+

of the zero-touch deployment
KPI, by my team

100k+

concurrent users on a Kafka/
Vert.x platform

■ CORE SKILLS

Ways of working

Scrum Master practice Technical leadership & mentoring DevSecOps coaching
Standards & enterprise-pattern adoption

AI-assisted engineering

Claude Code OpenAI Codex Devin Governed agentic workflows AI-assisted code review

DevSecOps & CI/CD

CloudBees CI (expert) CloudBees CD/RO (expert) Jenkins CircleCI SAST / DAST / SCA gates
SBOM & supply-chain security Policy as code Platform engineering (golden paths)

Governance & compliance

DORA (EU Digital Operational Resilience Act) Deployment governance

Backend

Java 8–17 Spring Boot / Security / Web Vert.x REST GraphQL JPA / Hibernate JUnit 5

Architecture

Microservices Event-driven / CQRS Apache Kafka Hazelcast clustering
API gateways (Kong, Ambassador)

Cloud & Data

AWS (EC2) Google Cloud Platform Oracle PostgreSQL SQL tuning & partitioning

■ EXPERIENCE

DevSecOps Customer Success Architect (Consultant) · **SWIFT**, Brussels, Belgium

Jan 2025 – Present

Global cooperative behind secure financial messaging; DevOps Engineering Services organisation serving a regulated, multi-squad platform.

- Onboarded **40+** Java applications onto the centralised Release Orchestration platform (CloudBees CD/RO) with **zero-touch** deployment from commit to production; my team delivered **80%+** of the company-level KPI to move **100%** of applications to **zero-touch**.
- Designed the CI/CD blueprints (golden paths) every onboarded squad now ships through and coaches **5+** squads as DevSecOps solutions architect: enterprise patterns, delivery standards and the technical reference for secure delivery.
- Built **20+** orchestrated-patching pipelines covering **300+** VMs, cutting patching time by **40%** and making patch cycles repeatable enough that teams trust them; core of the company KPI for **100%** orchestrated VM patching.
- Integrated SAST/DAST scanning into the standard pipelines of several critical applications, turning security findings into enforced gates in the secure SDLC.
- Drives SBOM generation and policy-as-code guardrails in the standard pipelines, giving supply-chain visibility and enforceable controls aligned with DORA's ICT-risk and resilience requirements.

Senior Software Engineer (Consultant) · **Swissquote**, Geneva, Switzerland (hybrid)

Jul 2024 – Dec 2024

Swiss online bank; regulated, high-availability financial environment.

- Led the migration of a **2.5 billion**-record financial database to Oracle, preserving data integrity and business continuity throughout.
- Built a high-performance Java data loader that moved **2.5 billion** records between databases without disrupting consumers.

Three squads over five years: Identity Management, Community Gateway and Knowledge Channels.

- Spearheaded the migration of the Identity Management monolith to a microservices architecture, keeping the service live for users throughout the transition.
- Led the JSF-to-Angular migration of the same platform, a delivery tied directly to a key business KPI.
- Owned the container strategy for two squads as Docker champion, building and hardening the images and keeping them aligned with security and tooling standards.
- Served as Scrum Master alongside agile coaches and mentored junior developers as the squad's specialist, improving delivery flow and onboarding.

Tech Lead & Senior Software Engineer · Eleven Sports (MyCujoo), Lisbon, Portugal

Jun 2018 – Jun 2019

Sports media group (premium TV channels and OTT); first backend engineer on the player-experience platform, reporting to the CTO.

- Designed from scratch a cloud-native, clustered CQRS/event-driven microservices backend on Vert.x, built for high throughput and low latency.
- Architected a real-time fan-engagement platform on Kafka enabling live, social-network-style interaction between football players and their fans.
- Ran the platform on Kubernetes and GCP, supporting **hundreds of thousands** of concurrent interactions, with Prometheus/Grafana monitoring for availability.
- Designed the CI/CD pipelines (CircleCI to GCP) the team shipped through.

■ OPEN FRAMEWORKS

Frameworks published under Techstream, my consultancy — github.com/sotille.

DevSecOps Framework — principles, architecture patterns, security controls and implementation guidelines

DevSecOps Maturity Model — assess and guide organisations towards secure software delivery

DevSecOps Methodology — processes, governance, tooling and transformation roadmap

■ EARLIER EXPERIENCE

Senior Java Developer · **WPLEX** (public transport), Brazil

2015 – 2018

Java Developer · **Metaway** (public sector), Brazil

2015 – 2015

Java Developer · **Città** (public management), Brazil

2010 – 2014

Junior Java Developer · **Allcance** (industry), Brazil

2008 – 2009

■ EDUCATION & CERTIFICATIONS

Universidade de Passo Fundo (UPF), Brazil

Postgraduate, Cloud Security & Smart Contracts

2023

Postgraduate, AI & Data Science

2023

B.Sc. Computer Science

2016

Certified Kubernetes Security Specialist (CKS) · CNCF / Linux Foundation (in progress)

2026

Certified Kubernetes Administrator (CKA) · CNCF / Linux Foundation (in progress)

2026

Portuguese · Native

English · Fluent

French · B1 · intermediate

■ WHAT COLLEAGUES SAY

"A technical reference and mentor for multiple engineering teams, frequently sought out for guidance on secure software delivery and release orchestration."

— Sudhir Indurti, Lead DevOps Engineer, SWIFT, 2026

"Probably the most skilled developer I have ever met. Enthusiastic about new technologies and making things work."

— Arnau Rovira, DevOps Engineer, Eleven Sports
